2.3. Na projektima za privredu Fakultet je u 2012 godini učestvovao u realizaciji 14 projekata.

III ZAKLJUČCI

1. S obzirom da se kvalitet naučno-istraživačkog rada meri preko broja publikovanih radova u časopisima sa IF kao i ostvarenim citatima (prema SCOPUS-u), dobijeni rezultati tokom 2012. godine na Fakultetu mogu se oceniti kao izuzetno uspešni. Ovaj zaključak se nameće posebno kada se dobijene brojke izraze po broju zaposlenih nastavnika. Dobijeni rezultat je među najboljim u Srbiji.
2. Na sl. 1. u prilogu 1. prikazan je trend broja publikovanih radova, ostvarenih citata i broja nastavnika koji učestvuju u ovom rezultatu od 2007. godine od kada se ovi rezultati mere na Fakultetu. Dobijeni rezultat pokazuje trend pozitivnog rasta. Ova činjenica ohrabruje zato što stvara osnovne pretpostavke za uvećanje kompetencija zaposlenih i rejtinga Fakulteta kako u Srbiji tako i u inostranstvu.
3. Prisutna je činjenica da se na radovima po pravilu javlja veći broj autora što može biti nepovoljno kod budućih izbora (imajući u vidu nacrt kriterijuma za izbor u zvanja) kao i kod vrednovanja rezultata na projektima.
4. Zadovoljavajuće angažovanje na projektima 2010 – 2014 obavezuje sve istraživače da ostvare očekivane rezultate kako bi za naredni ciklus 2014-2018 imali što bolju startnu poziciju.

Sl.3. Komparativni prikaz broja citata na JCR listi - TF Bor, period 2007. - 2012. god.

Ovakav prikaz ukazuje na pozitivan trend broja rezultata NIR-a koje su nastavnici i saradnici Tehničkog fakulteta u Boru ostvarili tokom 2012. godine. Posebno treba pomenuti značajan porast pojedinih važnih naučnih rezultata - skoro udvostrućen broj rezultata M20 kategorije (2011. – 58; 2012. – 97) i citiranosti (2011. – 157; 2012. – 258) u odnosu na prethodnu godinu. Primetna je ravnomernija prisutnost autora iz različitih oblasti istraživanja u broju radova kategorija M21, M22 i M23 u odnosu na raniji period:

- 10 radova M20 kategorije iz oblasti rudarstva,
- 25 radova M20 kategorije iz oblasti metalurgije,
- 9 radova M20 kategorije iz oblasti tehnologije,
- 15 radova M20 kategorije iz oblasti inženjerskog menadžmenta i
- 18 radova M20 kategorije iz oblasti matematike, fizike, mašinstva, informatike i elektrotehnike,

Što se može smatrati dobrom posledicom stalnog pooštavanja kriterijuma izbora u nastavna zvanja, evaluacija na projektima MPNTR, uvodjenja sistema kvaliteta kroz akreditacioni proces, itd. Izuzetno se pozitivno može oceniti značajno učešće mlađih – asistenata, doktorskih studenata, u ukupnom broju radova u prethodnih godini. Što se citiranosti tiče, iako se i u tom segmentu uočava povećana heterogenost citiranih autora, i dalje se izdvaja nekoliko istraživačkih grupa i pojedinaca u ukupnoj citiranosti i za 2012. godinu, i to posebno: prof. dr Milan Antonijević - 83 citata (ukupni broj citata 516, ukupni broj radova 58), prof. dr Dragana Živković - 61 citat (ukupni broj citata 443, ukupni broj radova 155), i prof. dr Živan Živković - 57 citata (ukupni broj citata 465, ukupni broj radova 136). Takodje, uočeno je povećanje broja odbranjenih doktorskih disertacija mlađih kolega asistenata, kao i porast broja tehničkih i razvojnih rešenja autora sa TF Bor u odnosu na prethodni period.

Vezano za tekući projektni ciklus kod MPNTR, i dalje su prisutni stalni problemi vezano za nezavidnu materijalno-finansijsku situaciju. Sredstva za DMT nisu isplaćena u celosti, kapitalna oprema koja je odobrena određenim projektima još uvek nije stigla, ali su tokom ove godine stigli materijal za rad i sitna

oprema nabavljeni preko JUP-a. Jasno je da ovakav finansijski trend ne moće dovesti do maksimalno kvalitetnih rezultata, niti omogućiti predvidjeno izvršenje projektnih aktivnosti. Krajem 2012. započela je i evaluacija projekta na polovini ciklusa.

U oblasti saradnje sa privredom, kao i u ranijem periodu, radi se prevashodno o tehničkim kontrolama rudarskih projekata, a tokom 2012. godine su pokrenute i nove akcije vezane za popularizaciju nauke kod mladih – kroz jedan projekat promocije omladinskog preduzetništva kod CPN RS i učešće na Prvom festivalu nauke u Boru, pod nazivom “Naučni tornado”.

TF Bor je i ove godine imao brojna dešavanja na planu medjunarodne saradnje. Kao i svake godine, potpisani su bilateralni sporazumi i ugovori o poslovno-tehničkoj saradnji sa relevantnim visokoškolskim organizacijama, naučnim institutima i drugim ustanovama iz srodnih oblasti, nastavljen je uspešan rad akademskih mreža u kojima je TF Bor aktivan partner (Resita Network, MetNet, EURAXESS mreža), a kroz aktuelne medjunarodne projekte ostvareni su važni kontakti sa respektabilnim evropskim akademskim i naučnim institucijama, što je stvorilo povoljnu klimu za razvoj daljih aktivnosti u smislu medjunarodne razmene studenata i nastavnog osoblja. Beleži se značajan broj organizovanih poseta doktorskih studenata i nastavnika TF Bor partnerskim fakultetima u inostranstvu, kao i poseta nastavnika sa inostranih univerziteta (UK, Slovenia, China, Bulgaria, Canada, Hrvatska, etc.) na TF Bor, medju kojima i pojedinih uvaženih svetskih imena, što je opširnije opisano u samom pregledu rezultata. Ovo je trend koji dalje treba podržavati i razvijati.

U oblasti izdavačke aktivnosti treba istaći da je štampan uobičajeni broj udžbeničke literature kao i ranijih godina. Što se tiče stanja vezano za izдавanje časopisa, treba istaći da je časopis *Journal of Mining and Metallurgy - Section B: Metallurgy*, čiji je TF Bor izdavač a MPNTR RS finansijski sponzor, i u protekloj godini zabeležio dobre rezultate ostvarujući IF (2011) = 1,317 (Metallurgy & Metallurgical Engineering 14/75), u odnosu na rezultate iz prethodnih godina (IF(2009)=0.548(29/70), IF(2010)=1.294(12/76)). Obzirom da je u svojoj disciplini svrstan među prvih 30% u svetu, klasifikovan je prema MPNTR RS kao vrhunski međunarodni časopis M21 kategorije. I druga dva časopisa koja se izdaju na TF Bor – *Serbian Journal of Management* (klasifikovan u kategoriju M24 prema MPNTR RS u 2012. godini, finansiran od strane MPNTR RS) i *Journal of Mining and Metallurgy, Section A: Mining* (klasifikovan u kategoriju M53 prema MPNTR RS u 2012. godini) nastavljaju dobrim tempom dalje i očekuje se da uskoro poboljšaju svoje pozicije na listama kategorizacije časopisa, dok je pozitivni pomak načinio četvrti časopis koji izdaje TF Bor - *Reciklaža i održivi razvoj*, koji je po prvi put u 2012. godini klasifikovan od strane MPNTR RS, i to kao časopis kategorije M53. Treba napomenuti da finansijska situacija u oblasti publikovanja časopisa nije nimalo zavidna, i u skladu je sa opštim trendom ulaganja u nauku na nivou Srbije u poslednjem periodu.

Tokom protekle godine, fakultet je uspešno organizovao 3 naučna skupa:

- jubilarni XX International Scientific and Professional Meeting "Ecological Truth" ECO-IST 2012, (Zaječar, maj 2012.)
- VIII Majska konferencija o strategijskom menadžmentu - MKSM2011 (Bor, maj 2012.) , u okviru koga je održan i studentski simpozijum na istu temu, i
- VII Simpozijum Reciklažne tehnologije i održivi razvoj - SRTOR2012 (Sokobanja, septembar 2012.), , u okviru koga je održan istudentski simpozijum na istu temu,

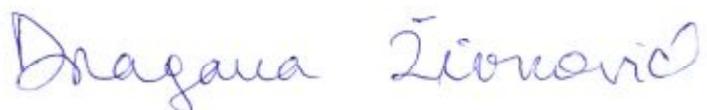

i učestvovao kao koorganizator u 2 medjunarodna naučna skupa:

- 44th International October Conference on Mining and Metallurgy - IOC 2012 (Bor, oktobar 2012.) i
- 2nd International Symposium on Environmental and Materials Flow Management – EMFM 2012 (Zenica, BiH, 5-7. jun 2012.)

Takodje, u organizaciji TF Bor su održane i dve naučne radionice – jedna u sklopu TEMPUS MCHEM projekta – *Workshop ‘Remediation’* (Bor, april 2012.) i druga u sklopu Resita Network - *‘International Summer School: Strategic Management for Entrepreneurs’*(Bor, maj 2012.), dok je TF Bor kao koorganizator učestvovao po prvi put i u *1st Winter School - Renewable Energy Systems and Green Nanotechnologies for a Clean Environment*, u organizaciji University of Craiova, University of Bucharest (Romania), University of Pisa i University of Palermo (Italy).

Na osnovu izloženog, može se smatrati da su rezultati u oblasti NIR-a i medjunarodne saradnje tokom 2012. godine bili više nego zadovoljavajući, čak pomerajući neke limite iz prethodnih godina, ali da svakako treba raditi na tome da se stvore uslovi kako bi se u narednom periodu dalje unapredili i poboljšali.
