2. Učešće u projektima

- 2.1. U toku 2011. godine nastavnici i saradnici učestvuju u realizaciji 7 medjunarodnih projekata
- 2.2. U periodu 2010-2014. godine Fakultet učestvuje u realizaciji 26 projekata koje koje finansira Ministarstvo za nauku i prosvetu Republike Srbije, od čega :
 - a) U projektima osnovnih istraživanja, 9 projekata od čega za 2 projekta je koordinator Tehnički fakultet u Boru. Na ovim projektima učestvuje 20 istraživača. Potrebno je naglasiti da je u selekciji ove vrste projekata učesrtnovalo 395 projekata, a projekat 172037 (rukovodilac Prof. dr Dragana Živković) zauzeo je četvrto mesto u konkurenciji u svim

oblastima OI, a u kategoriji projekata iz oblasti hemije zauzeo je prvo mesto.

- b) U projektima kategorije tehnološkog razvoja Fakultet učestvuje u ukupno 14 projekata od toga za 3 projekta koordinator je Tehnički fakultet u Boru. Na ovim projektima učestvuje 44 istraživača sa Fakulteta.
- c) Na projektima kategorije III Fakultet učestvuje na ukupnoi 4 projekata sa 9 istraživača.

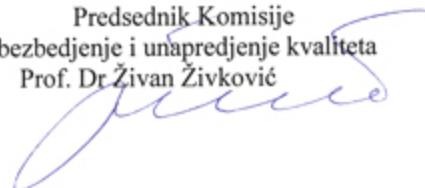

2.3. Na projektima za privredu Fakultet je u 2011 godini učestvovao u realizaciji 9 projekata.

III ZAKLJUČCI

1. S obzirom da se kvalitet naučno-istraživačkog rada meri preko broja publikovanih radova u časopisima sa IF kao i ostvarenim citatima (prema SCOPUS-u), dobijeni rezultati tokom 2011. godine na Fakultetu mogu se oceniti kao izuzetno uspešni. Ovaj zaključak se nameće posebno kada se dobijene brojke izraze po broju zaposlenih nastavnika. Dobijeni rezultat je medju najboljim u Srbiji.
3. Na sl.l. u prilogu 1. prikazan je trend broja publikovanih radova, ostvarenih citata i broja nastavnika koji učestvuju u ovom rezultatu od 2007. godine od kada se ovi rezultati mere na Fakultetu. Dobijeni rezultat pokazuje trend pozitivnog rasta. Ova činjenica ohrabruje zato što stvara osnovne prepostavke za uvećanje kompetencija zaposlenih i rejtinga Fakulteta kako u Srbiji tako i u inostranstvu.
4. I dalje je prisutna činjenica da manje od 50% zaposlenih ostvaruje rezultate u kategoriji M20, što je osnovni uslov za izbor u zvanje , odbranu doktorske disertacije i organizovanje doktorskih studija. Na pojedinim katedrama gde se ostvaruju ispodprosečni rezultati potrebno je u narednom periodu uložiti znatno više napora u cilju ostvarivanja rezultata u kategoriji M20 i dobijanju prvih citata.
5. Zadovoljavajuće angažovanje na projektima 2010 – 2014 obavezuje sve istraživače da ostvare očekivane rezultate kako bi za naredni ciklus 2014-2018 imali što bolju startnu poziciju.

Ovakav prikaz ukazuje na brojne rezultate NIR-a koje su nastavnici i saradnici Tehničkog fakulteta u Boru ostvarili tokom 2011. godine. Uočava se pozitivan trend učešća sve većeg broja

istraživača u različitim oblicima aktivnosti NIR-a, posebno u smislu publikovanja radova u časopisima M20 kategorije i citiranosti, kao i ravnomernija prisutnost autora sa svih studijskih programa u pomenutim aktivnostima u odnosu na raniji period, a što se može smatrati rezultatom uvođenja standarda kvaliteta kroz akreditacioni proces, kao i stalnog pooštravanja kriterijuma izbora u nastavna zvanja.

Proteklu godinu obeležio je i početak novog projektnog ciklusa kod Ministarstva prosvete i nauke, koji je započeo sa zakašnjenjem zbog gašenja ranije postojećeg Ministarstva za nauku i tehnološki razvoj, uz izrazite probleme izazvane nezavidnom materijalno-finansijskom situacijom vezano kako za globalni recesioni status, tako i za realne prilike minimalnog izdvajanja sredstava za nauku iz budžeta u našoj zemlji. Sredstva za DMT su kasnila, oprema koja je odobrena određenim projektima, kao i materijal za rad, nisu stigli u toku prve istraživačke godine, što se odrazilo i na projektne aktivnosti i uticalo na to da se predviđeni plan aktivnosti odvija usporeno i bez značajnijih rezultata.

TF Bor je i ove godine imao brojna dešavanja na planu medjunarodne saradnje. Kao i svake godine, potpisani su bilateralni sporazumi i ugovori o poslovno-tehničkoj saradnji sa relevantnim visokoškolskim organizacijama, naučnim institutima i drugim ustanovama iz srodnih oblasti, nastavljen je uspešan rad akademskih mreža u kojima je TF Bor aktivni partner (Resita Network, MetNet, EURAXESS mreža), a kroz započete medjunarodne projekte ostvareni su važni kontakti sa respektabilnim evropskim akademskim i naučnim institucijama, što je stvorilo povoljnju klimu za razvoj daljih aktivnosti u smislu medjunarodne razmene studenata i nastavnog osoblja. Beleži se veći broj organizovanih poseta doktorskih studenata i nastavnika TF Bor partnerskim fakultetima u inostranstvu u odnosu na protekli period, kao i poseta nastavnika sa inostranih univerziteta na TF Bor, medju kojima i pojedinih uvaženih svetskih imena. Ovo je trend koji dalje treba podržavati i razvijati.

Mora se posebno istaći i uspeh koji je tokom 2011. godine postigao časopis **Journal of Mining and Metallurgy - Section B: Metallurgy**, a čiji je TF Bor izdavač. Nakon uspešnog starta na SCIExpanded listi 2007. godine i izlaska na JCR listu 2009. godine, kada beleži IF=0.548 (29/70 u oblasti Metallurgical Engineering) i biva klasifikovan kao časopis M22 prema kategorizaciji MPN, u protekloj godini JMM-B beleži svoj do sada najveći uspeh – IF= 1.294 (12/76 u oblasti Metallurgical Engineering) i klasificuje se, prema MPN, kao vrhunski međunarodni časopis M21 kategorije, koji je u svojoj disciplini svrstan među prvi 30% u svetu. U dosadašnjih 50 godina, ovo se može smatrati najvećim izdavački uspehom našeg fakulteta. Naravno, da bi se to održalo neophodno je nastaviti kontinuirano sa aktivnostima koje će doprineti daljem podizanju kvaliteta i uticajnosti JMM-B. Ostala tri časopisa koja se izdaju na TF Bor – Journal of Mining and Metallurgy, Section A: Mining (M52), Serbian Journal of Management (M24) i Reciklaža i održivi razvoj (za sad bez klasifikacije) nastavljaju dobrim tempom dalje i očekuje se da uskoro poboljšaju svoje pozicije na listama kategorizacije časopisa.

Tokom protekle godine, fakultet je uspešno organizovao i 5 naučnih skupova – tri medjunarodna skupa: *43rd International October Conference on Mining and Metallurgy - IOC 2011*, *XIX International Scientific and Professional Meeting "Ecological Truth" ECO-IST 2011*, i po prvi put, u zajedničkoj organizaciji sa Mašinskim fakultetom Univerziteta u Zenici (BiH) i University of Applied Sciences Trier, Environmental Campus Birkenfeld (Germany) *1st International Symposium on Environmental and Materials Flow Management – EMFM 2011*; i dva nacionalna skupa sa medjunarodnim učešćem: 7. Majска konferencija o strategijskom menadžmentu-MKSM2011 i 6. Simpozijum Reciklažne tehnologije i održivi razvoj - SRTOR2011.

Na osnovu izloženog, može se smatrati da su rezultati u oblasti NIR-a i medjunarodne saradnje tokom 2011. godine bili zadovoljavajući, ali da svakako treba raditi na tome da se stvore uslovi kako bi se u narednom periodu dalje unapredili i poboljšali.

I na samom kraju, moram da izrazim lično zadovoljstvo što je tokom prethodne, jubilarne godine u kojoj smo slavili 50 godina obrazovanja i nauke na Tehničkom fakultetu u Boru, odradjena puna sistematizacija i klasifikacija publikovanih radova zaposlenih na TF Bor u medjunarodnim časopisima, kao i projekata urađenih na TF Bor, u periodu od 1961 - 2011. godine, što se može smatrati poduhvatom vrednim pažnje. U tom smislu, treba pomenuti i monografiju štampanu tim povodom, koja je za sada jedinstvena riznica celokupnih aktivnosti u NIR-u postignutih od osnivanja fakulteta do danas.
